Minutes

Decisions

- Approval of meeting minutes from 3 Feb 2026
- Decision on whether to advise the Steering Committee to take Eclipse SKyBT under SDV WG purview

Topics

- Minutes of the previous meeting were approved.
- TAC held a vote on recommending Eclipse SKyBT as an SDV WG project.
- The proposal did not receive sufficient support.
- Members raised concerns about:
 - Waterfall-like development approach
 - Limited flexibility of keyword-based testing
 - Lack of interoperability with existing SDV projects (e.g., S-CORE ITF)
 - Risk of ecosystem fragmentation
 - Testing architecture relying on database-based approaches
- Result: TAC did not recommend adopting SKyBT under WG purview.
